

BRIANNA BROCKINGTON

Full Stack Software Engineer | AI-Assisted Development | AWS Certified

Jacksonville, FL (Remote / Open to Relocation) | 813-860-6142 | briannab1997@gmail.com | linkedin.com/in/brianna-brockington | github.com/briannab1997

PROFESSIONAL SUMMARY

Full Stack Software Engineer and Customer Success Manager with a B.S. in Software Engineering and hands-on experience building and shipping web and mobile applications using Java, Python, JavaScript, TypeScript, and React. Background in software development, QA, and enterprise platform support in regulated healthcare environments. Uses AI tools daily, including Claude, GitHub Copilot, and the OpenAI API, to accelerate coding, debugging, and documentation. AWS Certified Cloud Practitioner, comfortable in Agile/Scrum environments.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, Kotlin, C#, SQL, HTML, CSS
CS Concepts: OOP, Data Structures, Algorithms, Big-O Analysis, SOLID Principles
Web & APIs: React 18, React Native, Spring Boot, Node.js, REST APIs, GraphQL (concepts), OpenAI API
Cloud & DevOps: AWS (Certified Cloud Practitioner), Docker, CI/CD, GitHub Actions, Git, Jira, Agile/Scrum
Databases & Testing: PostgreSQL, MySQL, SQLite, SQL Server, relational modeling, manual/regression/exploratory testing, API automation, Postman
Engineering & AI Tools: Full SDLC, unit testing, code reviews, root cause analysis, Claude, GitHub Copilot, ChatGPT, OpenAI API, prompt engineering

CERTIFICATIONS

AWS Certified Cloud Practitioner | CompTIA Network+ | ITIL Foundation - IT Service Management | Google IT Support Professional | Google Cybersecurity Professional Certificate

PROJECTS

ShopNova - Full-Stack E-Commerce Platform

- Full-stack e-commerce platform with cart persistence, 3-step checkout, auth, product search, and order history. Built with React 18, TypeScript, and Node.js, extended to a React Native/Expo mobile app with full feature parity.

BudgetWise - Personal Finance Dashboard

- Personal finance dashboard with transaction tracking, budget management, savings pots, recurring bills, and chart-based reporting. Built in JavaScript with tested calculation logic.

AccessFlow - Enterprise Access Request System

- Mock enterprise HR/IT access request system with role-based views, approval queues, audit logging, and CSV export. Built in JavaScript.

Data Pipeline - Python ETL Pipeline

- Modular Python ETL pipeline with configurable extraction, transformation, and loading across multiple data sources, including error handling and logging.

PROFESSIONAL EXPERIENCE

Customer Success Manager | Scriptly

Aug 2026 - Present

- Primary point of contact for a portfolio of pharmacy accounts on a cloud-based pharmacy management platform; leading onboarding, driving product adoption, and ensuring clients achieve maximum value from Scriptly.
- Collaborating with Sales, Engineering, and Support teams to advocate for customer needs; conducting business reviews, monitoring account health, and developing retention strategies grounded in nearly a decade of pharmacy operations experience.

Senior Engineer (Internship) | Kentish Publishing Company

Mar 2026 - Jul 2026

- Built full-stack features for AI-driven content automation tools using React and Node.js; debugged application behavior, wrote unit tests, and contributed to prompt engineering and data processing pipelines in an Agile environment.

Pharmacy Operations Coordinator | CenterWell Pharmacy

Dec 2025 - Apr 2026

- Primary liaison between pharmacy operations and IT; documented system defects and performed root cause analysis on platform errors, including access control failures and data sync issues, proposing system-level improvements.

Senior Pharmacy Care Coordinator | Centene

Feb 2024 - Dec 2025

- Subject-matter expert for enterprise platforms at a large managed care organization; diagnosed errors, performed root cause analysis, coordinated IT escalations, and produced system documentation across compliance-heavy platforms.

Certified Pharmacy Care Coordinator | OptumRx

May 2019 - Feb 2024

- Served as IT liaison between call center operations and IT, escalating compliance-risk platform issues with structured documentation; trained specialty providers on EMR/EHR access and PHI compliance.

- Led early-stage formation of the OptumCare team and developed onboarding procedures to support workflow continuity during system transitions.

EDUCATION

B.S. Software Engineering, Western Governors University, 2026 | A.S. Health Sciences - Pharmacy Technician, Ultimate Medical Academy, 2017
