

BRIANNA BROCKINGTON

Software Engineer · Full Stack · AWS Certified · B.S. Software Engineering, 2026

Greer, SC · Willing to Relocate · 813-860-6142 · briannab1997@gmail.com · linkedin.com/in/brianna-brockington-1b6a59a9 · github.com/briannab1997

PROFESSIONAL SUMMARY

Full Stack Software Engineer and recent B.S. Software Engineering graduate with hands-on experience building and shipping web and mobile applications using Java, Python, JavaScript, TypeScript, and React. Strong foundation in OOP, data structures, algorithms, REST APIs, relational databases, and cloud technologies. AWS Certified Cloud Practitioner and CompTIA Network+. Background in enterprise systems brings proven ability to troubleshoot complex applications, document defects, and collaborate across technical and non-technical teams. Experienced with CI/CD pipelines, Docker, Git, and Agile/Scrum workflows. Actively seeking junior or entry-level software engineering roles where I can contribute immediately and grow quickly.

TECHNICAL SKILLS

Languages:	Java · Python · JavaScript · TypeScript · Kotlin · C# · SQL · C++ · HTML · CSS
CS Concepts:	OOP (Encapsulation, Inheritance, Abstraction, Polymorphism) · Data Structures (Arrays, Linked Lists, Trees, Hash Maps, Stacks, Queues) · Algorithms · Big-O Analysis
Web & APIs:	React 18 · React Native · TypeScript · Node.js · Vite · REST APIs · OpenAI API · HTML · CSS · Responsive UI/UX
Cloud & DevOps:	AWS (Certified Cloud Practitioner) · Azure (concepts) · Docker · CI/CD · GitHub Actions · Git · Agile/Scrum
Databases:	SQL · MySQL · PostgreSQL · SQLite · NoSQL (concepts) · Relational Modeling · Normalization · Joins · DDL/DML
Testing & QA:	Manual Testing · Test Case Design · Bug Reporting · API Testing (Postman) · Exploratory Testing · Defect Triage
Engineering:	OOP · Full SDLC · Code Reviews · Unit Testing · TDD (concepts) · Technical Documentation · Root Cause Analysis · Cross-functional Collaboration · Agile/Scrum
Tools:	Jira · Postman · Chrome DevTools · VS Code · IntelliJ · Agile/Scrum

CERTIFICATIONS

✓ AWS Certified Cloud Practitioner · ✓ CompTIA Network+ · ✓ ITIL Foundation – IT Service Management · ⌚ Google IT Support Professional (In Progress)

PROJECTS

ShopNova – Full-Stack E-Commerce Platform | [GitHub](#) | [Live Demo](#)

- ▶ Built and shipped a full-stack e-commerce web application using React 18, TypeScript, and Vite with user authentication, cart state management, order history, and product search; deployed via CI/CD pipeline using GitHub Actions.
- ▶ Extended to a React Native and Expo mobile app (iOS and Android) with full feature parity, demonstrating cross-platform development across web and native environments.

BlossomAI – Personalized AI Companion | [GitHub](#)

- ▶ Built and shipped a full-stack AI-powered web application using JavaScript, Node.js, and the OpenAI API with structured backend request handling, response validation, and a responsive user interface.

Luminary – AI Study App | [GitHub](#)

- ▶ Built a full-stack study application in TypeScript end-to-end, implementing clean and maintainable code across a responsive frontend and backend services supporting dynamic user workflows.

TaskFlow (Bloom) – Native Android Task Manager | [GitHub](#)

- ▶ Built a native Android app in Kotlin using MVVM architecture, Room (SQLite) database, Kotlin Coroutines, and Material Design 3 — with priority levels, swipe-to-delete, and full data persistence.
- ▶ Implemented Repository pattern, ViewModel + LiveData, and RecyclerView with DiffUtil — aligned with Google's Android best practices.

Travel Explorer – API-Driven Dashboard | [GitHub](#)

- ▶ Built a real-time data dashboard integrating multiple third-party REST APIs, implementing async data pipelines, error handling, and a responsive UI in vanilla JavaScript with no framework dependencies.

P R O F E S S I O N A L E X P E R I E N C E

Senior Engineer (Internship)

Mar 2026 – Present

Kentish Publishing Company (Remote)

- ▶ Lead technical development initiatives for digital platforms, interactive media, internal systems, and web-based projects -- designing and building full-stack features for AI-driven content automation tools using React and Node.js, contributing to backend services, and driving system integrations in an Agile engineering environment.
- ▶ Assist with software development, technical problem-solving, and systems optimization -- debugging application behavior, developing backend functionality, writing unit tests, and improving reliability and performance of production tools across the Game Design and Interactive Media department.
- ▶ Support the implementation of technology solutions that support company operations and creative projects -- contributing to prompt engineering, data processing pipelines, technical documentation, and system integrations across evolving digital and interactive media workflows.

Certified Pharmacy Technician

Dec 2025 – Apr 2026

CenterWell Pharmacy

- ▶ Serve as primary liaison between pharmacy operations and IT/help desk support teams — logging tickets, documenting system defects, reproducing bugs, and escalating issues with detailed technical write-ups.
- ▶ Troubleshoot enterprise platform errors including access control failures, data sync issues, and workflow breakdowns — performing root cause analysis and coordinating resolution with technical teams.
- ▶ Identify process inefficiencies across regulated workflows and propose system-level improvements, demonstrating cross-functional problem-solving and systems thinking.

Senior Pharmacy Care Coordinator

Feb 2024 – Dec 2025

Centene

- ▶ Acted as subject-matter expert for internal enterprise platforms — diagnosing application errors, advising on root cause analysis, and coordinating IT escalation paths across regulated workflows.
- ▶ Produced detailed system and process documentation; collaborated cross-functionally with IT, operations, and compliance teams to resolve workflow bottlenecks and platform inefficiencies.
- ▶ Supported help desk and IT support functions by triaging user-reported issues, validating system behavior, and documenting defects in a manner consistent with QA best practices.
