

BRIANNA BROCKINGTON

Software Engineer · Full Stack · AWS Certified · B.S. Software Engineering, 2026

Greer, SC · Willing to Relocate · 813-860-6142 · briannab1997@gmail.com · linkedin.com/in/brianna-brockington-1b6a59a9 · github.com/briannab1997

PROFESSIONAL SUMMARY

Full Stack Software Engineer and QA Engineer with a B.S. in Software Engineering (2026) and hands-on experience building, testing, and shipping web and mobile applications using Java, Python, JavaScript, TypeScript, and React. Dual-track background in software development and quality assurance including API automation, manual testing, and defect documentation in regulated enterprise environments. AWS Certified Cloud Practitioner, CompTIA Network+, and ITIL Foundation. Thrives in Agile teams, picks up new technologies quickly, and delivers software that works reliably.

TECHNICAL SKILLS

Languages:	Java · Python · JavaScript · TypeScript · Kotlin · C# · SQL · HTML · CSS
CS Concepts:	OOP · Data Structures · Algorithms · Big-O Analysis · SOLID Principles
Web & APIs:	React 18 · React Native · Spring Boot · Node.js · REST APIs · GraphQL (concepts) · OpenAI API · Responsive UI/UX
Cloud & DevOps:	AWS (Certified Cloud Practitioner) · Docker · CI/CD · GitHub Actions · Git · Jira · Agile/Scrum
Databases:	PostgreSQL · MySQL · SQLite · SQL Server · NoSQL (concepts) · Relational Modeling · DDL/DML
Testing & QA:	Manual Testing · Exploratory Testing · Regression Testing · API Automation · Test Case Design · Bug Reporting · WCAG 2.1 AA · Postman
Engineering:	Full SDLC · Unit Testing · Code Reviews · TDD (concepts) · Technical Documentation · Root Cause Analysis · Cross-functional Collaboration
Tools:	VS Code · IntelliJ · Postman · Chrome DevTools · GitHub Copilot · Vite · Expo

CERTIFICATIONS

✓ AWS Certified Cloud Practitioner · ✓ CompTIA Network+ · ✓ ITIL Foundation – IT Service Management · ⌚ Google IT Support Professional (In Progress)

PROJECTS

ShopNova – Full-Stack E-Commerce Platform | [GitHub](#) | [Live Demo](#)

- ▶ Full-stack e-commerce platform with cart persistence, 3-step checkout, auth, product search, and order history. Built with React 18, TypeScript, and Node.js; deployed via CI/CD on GitHub Actions.
- ▶ Extended to a React Native and Expo mobile app for iOS and Android with full feature parity.

BudgetWise – Personal Finance Dashboard | [GitHub](#)

- ▶ Personal finance dashboard with transaction tracking, budget management, savings pots, recurring bills, chart-based reporting, and tested calculation logic. Built in JavaScript with local data persistence.

AccessFlow – Enterprise Access Request System | [GitHub](#)

- ▶ Mock enterprise HR/IT access request system with role-based views, approval queues, audit logging, searchable records, metrics dashboard, and CSV export. Built in JavaScript.

P R O F E S S I O N A L E X P E R I E N C E

Senior Engineer (Internship)
Kentish Publishing Company (Remote)

Mar 2026 – Present

- ▶ Build full-stack features for AI-driven content automation tools using React and Node.js, contributing to backend services, system integrations, and technical development across digital platforms.
- ▶ Debug application behavior, write unit tests, and improve reliability of production tools; contribute to prompt engineering, data processing pipelines, and technical documentation.
- ▶ Collaborate across engineering, product, and creative teams in an Agile environment to support implementation of technology solutions.

Certified Pharmacy Technician
CenterWell Pharmacy

Dec 2025 – Apr 2026

- ▶ Primary liaison between pharmacy operations and IT -- documented system defects, reproduced bugs, and escalated issues with detailed technical write-ups across enterprise platforms.
- ▶ Performed root cause analysis on platform errors including access control failures and data sync issues; identified process inefficiencies and proposed system-level improvements.
- ▶ Coordinated resolution with technical teams and bridged operations and IT across regulated healthcare workflows.

Senior Pharmacy Care Coordinator
Centene

Feb 2024 – Dec 2025

- ▶ Subject-matter expert for enterprise platforms at a Fortune 25 managed care organization -- diagnosed application errors, performed root cause analysis, and coordinated IT escalations.
- ▶ Triage user-reported issues, validated system behavior, and documented defects consistent with QA best practices; collaborated cross-functionally with IT, operations, and compliance teams.
- ▶ Produced detailed system documentation and supported help desk functions across compliance-heavy enterprise platforms.
